

SOCIAL INNOVATION COMMUNITY

SIC Summer School on Social Innovation Ecosystems Budapest, 24-27 September 2018

In collaboration with:

Horizon 2020
European Union funding
for Research & Innovation

*SIC project received funding from the European Union's
Framework Programme - Horizon 2020*

*The SENSES project is co-financed by the INTERREG Danube
Programme, the European Regional Development Fund (ERDF), the
Instrument for Pre-Accession Assistance (IPA) and the Hungarian
Government*

The Social Innovation Community project is excited to announce the programme of the 5th Summer School on Social Innovation Ecosystems in collaboration with ESSI (the European School of Social Innovation) and in partnership with IFKA Public Benefit Non-Profit Ltd. for the Development of Industry.

Programme rationale

The economic, demographic, social, and environmental, long-term challenges are putting into question many of the assumptions that have thus far underpinned public services and established welfare systems, posing new challenges for cities and territories. Moreover, cities are struggling with diminishing public resources. They need to experiment with innovative approaches to address major social challenges, while also catering to their inclusive character.

In this scenario, Social Innovation has emerged as a new paradigm for cities and territories¹: a bottom-up process - social in its means and in its ends - in which social innovators, creative communities, citizens, vulnerable groups and civil servants co-produce unprecedented solutions at the interplay of state, private sector and civil society², tackling complex societal challenges (e.g. inclusion, employment, migration, climate change, etc.).

In particular, urban Social Innovation (SI) - as results from different EU projects (SIMPACT, SIC, SI-DRIVE, Transit, BENISI, Transition) have pointed out - has shown how citizens play a pivotal role in the search for new ideas and ways to solve major urban social challenges. Citizens are coming together to demand better solutions and find creative ways to work together and produce them.

SI develops in co-creation ecosystems³, as described by the quadruple helix model^{4 5}. In these contexts, co-creation starts from the situated needs, competencies and experiences of each actor, and strives to set up new modes of interaction that will flow in new assembly and network configurations. If well conducted, the process may lead not only to the generation of new solutions, but also to the reconfiguration of the same socio-technical system where it takes place. In other words, change occurs not just at the level of the outputs or single solutions, but across the entire ecosystem within which co-creation occurs. This overall system - which could be described as the complex combination of ideas, institutions, regulations and policies - constitutes at the same time the environment where citizen-driven innovation can unfold, and the result of its diffusion.

Moving away from traditional governance models, a growing number of cities are developing new approaches to both identify local issues and find solutions, engaging citizens not only in consultation but also in co-design and co-production.

Given this context, there is a strong rationale for building a Summer School in Budapest to support a process of diffusion of this new culture to help policy makers, intermediaries, innovators and citizens: i) understand

Horizon 2020
European Union funding
for Research & Innovation

SIC project received funding from the European Union's Framework Programme - Horizon 2020

The SENSES project is co-financed by the INTERREG Danube Programme, the European Regional Development Fund (ERDF), the Instrument for Pre-Accession Assistance (IPA) and the Hungarian Government

the potentialities and the outputs/outcomes of SI; ii) capture effective business models underpinning SI and balancing social value with economic sustainability; iii) co-create strategies for replication and scalability.

Summer school's overall objective

The overarching aim of the Summer School is to better understand SI as an inclusive urban phenomenon that is flourishing in European cities (through creative communities, fab labs, living labs, co-working spaces, incubators and accelerators of SI, etc.) and to reconnect it with the ecosystem conditions and dynamics that influence its development and replication.

Final Programme

24 September – 09:00 to 17:30

Morning session	Cities and The culture of co-creation How participatory approaches can trigger transformations in municipalities and urban environments	Venue
09:00 – 09:30	Francesca Rizzo , POLITECNICO DI MILANO/University of Bologna <i>Welcome and Introduction</i> Antonius Schröder , European School of Social Innovation (ESSI) <i>Introduction to ESSI mission and aims</i>	Room Olympia Danubius Hotel Arena (HU-1148 Budapest Ifjúság útja 1-3.)
Keynote 09:30 – 10.15	Antonius Schröder , European School of Social Innovation (ESSI) Social Innovation in Public Sector	
10.15-10.45	Coffee Break	
Case studies on municipalities and cultural change 10:45 – 12:30	Alvaro Luna , Sinnergiak <i>Introducing SI in the Basque region</i> Victoria Boelman , Young Foundation <i>Supporting communities voices: Amplify NI</i> Monica Nagore , SIC project (H2020) <i>SIC project: 5 cases of experimentation with Social Innovation</i>	
12:30 – 13:30	Lunch	
Afternoon session	Workshop 1: Introduction of the Challenges and Idea Generation	Venue
Joint session 13:30-14:30	Presentation of 3 challenges from the City of Budapest Francesca Rizzo , Politecnico di Milano <i>Presentation of the workshops' programme</i>	Room Olympia Danubius Hotel Arena (HU-1148 Budapest Ifjúság útja 1-3.)

25 September – 9.00 to 17.00

Open Morning session	Social economy in cities context Towards cooperative cities - what are the effective models underpinning social innovation and balancing social value and economic sustainability.	Venue
9:00 to 9:15	Aleksandra Kowalska , European Association for Information on Local Development (AEIDL) <i>Welcome and Introduction</i>	Room Olympia Danubius Hotel Arena (HU-1148 Budapest Ifjúság útja 1-3.)
Keynote 9:15 to 09:45	Zsuzsa Laczko , NESsT Hungary <i>Why Social Enterprises?</i>	
9:45 to 10:15	Coffee Break	
Case studies on the role of the social economy in the social innovation eco-system 10:15 to 12:30	Pauline Graham , Social Firms Scotland <i>Cooperative Capital Framework in the City of Edinburgh</i> Caroline Torfs , Food Savers <i>Social innovation with food surplus and secondary flows</i> Dimitri Berliner , Communa <i>Rethink and reshape the city. Transitory uses of unused buildings.</i>	
12:30 to 13:30	Lunch	
Close Afternoon session	Workshop 2: How the ideas will work	Venue
13:30 -17:00	The scope of the workshop is to guide participants through the process of idea development. Participants will work on 2 different exercises: ○ Actors map ○ Customer journey	Room Olympia Danubius Hotel Arena (HU-1148 Budapest Ifjúság útja 1-3.)

26 September – 9.00 to 17.30

Open Morning session	The Development of SI Eco-systems Learning about what they are, how they emerge, and the role of stakeholders in processes and networks	Venue
9:00 to 9:15	Christoph Kaletka , TU Dortmund University <i>Welcome and Introduction</i>	Room Olympia Danubius Hotel Arena (HU-1148 Budapest Ifjúság útja 1-3.)
Keynote 09:15 to 9:45	Christoph Kaletka & Dmitri Domanski , TU Dortmund University <i>Developing SI Ecosystems in Cities</i>	
9:45 to 10:15	Coffee Break	
Case studies on the development of Urban SI ecosystem 10:15 to 12:00	Hans-Werner Franz , European School of Social Innovation <i>Dortmund Consensus. Common Sense for Common Wealth</i> Stella Kalac , SIL <i>The SI Ecosystem in Zagreb</i>	
12:00 to 13:00	Lunch	
Closed Afternoon session	Workshop 3: How the ideas will be sustainable	Venue
14:30-17:30	The scope of the workshop is to draft the sustainability of the solutions. Participants will work on 2 different exercises: <ul style="list-style-type: none"> ○ Logic model ○ Social business model canvas. 	Room Olympia Danubius Hotel Arena (HU-1148 Budapest Ifjúság útja 1-3.)
