

BizkaiWeek

Social Innovation

Social Innovation Deusto and University of Deusto, within DeustoForum program and agreement with Bizkaia regional government (BizkaiLab), is glad to invite you to BizkaiWeek – Social Innovation Week, having place between 9 and 12th July 2012.

BizkaiWeek objective is to make us think about implications of Social Innovation in 4 main fields: University, Enterprise, Social Economy and Public Governance.

Nowadays, Social innovation is one of the most relevant tools available to transform the societies in which we live. It let us overcome new challenges and build better societies.

Thus, BizkaiWeek, together with other actions under BizkaiLab initiative, aims to generate a knowledge, development and social innovation hub in strategic fields for Bizkaia region.

For that purpose, high-qualified, national and international speakers will discuss main trends and success cases in each field of Social Innovation. Last but not least, round tables will let us open the discussion to the audience, focusing on local experiences.

We hope that BizkaiWeek is of your interest and that your presence may be confirmed.

Yours sincerely,

Miss Garbiñe Henry Moreno
Social Innovation Deusto Director
