# R&D indicators in Kyrgyzstan

Academy of Management under President of the Kyrgyz Republic
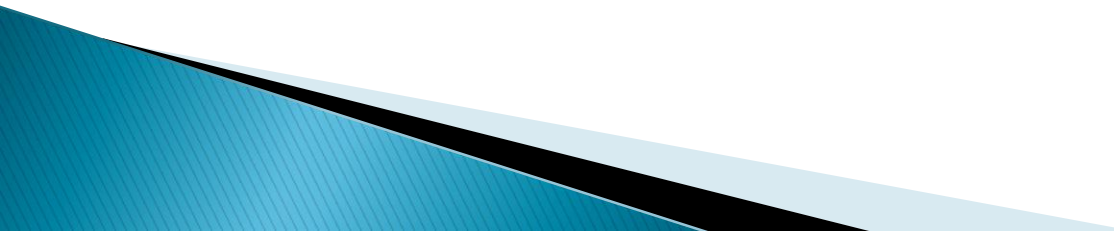

Abdilov Babur

Challenges in data collection

- Not enough data coverage
- Methodologies are outdated
- Absence of data collection from business enterprises

Internal usage (purpose)

- In the formulation of transport and internet communication policies for the government agencies
- Government educational programs

Comparability

- Local R&D statistics are not as comprehensive as international statistics:
  - Poor methodological framework in the data collection
  - Lack of resources on part of the statistical agencies to conduct surveys

  AMP KR is related to NSC as user of statistics:
  - Periodic meetings with NSC officials for data clarification purposes;
