

Official launch of the CHEST Call for Ideas!

ENGINEERING INGEGNERIA INFORMATICA,
the EUROPEAN INSTITUTE FOR PARTICIPATORY MEDIA
and PNO CONSULTANTS

are pleased to announce

the official launch of the first call of the CHEST Competition

CHEST is an R&D project funded under FP7, aiming at promoting the development of ICT based innovations that have the potential to address key societal challenges. The project will invest up to €2.5 million in seed finance for highly innovative ideas through the launch of three open funding rounds.

In this first Call for Ideas, winning proposals, exploring the feasibility of a new idea, will be awarded 6.000 € each.

Call submission deadline: 30th April 2014!

Do you have an innovative digital based idea that has the potential to address a specific societal challenge?

Would your idea benefit from the receipt of financial support for further development?

Do you consider yourself an expert in a specific domain where you would be willing to evaluate the ideas of other Social Entrepreneurs from across the EU?

Participate to the Call for Ideas

1 Propose

Sign in on CHEST portal and submit your idea

2 Share

Share and exchange ideas on CHEST forum

3 Evaluate

Evaluate, discuss and rate the ideas submitted

4 Apply for funding

The highest rated projects will be selected for funding

Develop
your idea
