Subject: Brochure on Territorial Employment Pacts in Austria 2009

Dear Ms Scoppetta,

I would like to thank you for your letter of July 2 last, together with the enclosed brochure on Austrian Territorial Employment Pacts 2009, which I read with great interest.

I particularly welcome the initiatives you are developing in the field of social innovation, including those which aim to improve the situation of our citizens which are on the margins of the labour market.

This is a subject to which I personally attach great importance and I am pleased that the financial resources made available by the European Social Fund (ESF) to Austria for the programming period 2007-2013 are being put to good use to this end.

I am passing on your brochure to the relevant services inside the Directorate General for Employment, Social Affairs and Equal Opportunities for further examination.
