

# Score activities

- **Consultation** with Western Balkan ICT stakeholders in order to identify the ICT research priorities per country.
- four know-how transfer **workshops** in order to transfer EU research results to research actors
- Final EU-Western Balkan **Regional Conference** to consolidate the Strategic Research Agendas and Policy Paper
- **Network Facilitation Support** through the SCORE portal, guided support and on-demand assistance

**The SCORE project addresses the need for well-defined future research priorities that will enhance scientific and research co-operation between the Western Balkan region and the EU. SCORE addresses specifically the thematic area of Information and Communication Technologies (ICT).**

## Score objectives

- Develop ICT Strategic Research Agendas for the Western Balkan countries defining the research priorities and needs per country
- Develop a Policy Paper with “Recommendations for shaping EU scientific co-operation with the Western Balkan Region in the field of ICT research: 2007-2013”
- Transfer EU research results and technologies in the identified ICT research priorities to the Western Balkan research actors
- Facilitate the development of networks among EU and Western Balkan ICT research actors in order to foster contacts, exchange ideas and pursue joint research collaboration

# Register to the SCORE portal at score-project.eu!

As a registered member you will:

- be able to have free access to all portal content
- be promptly informed on key project activities and news on ICT research developments
- access key documents and information on ICT research in your country and Western Balkan region.
- collaborate and exchange views with other members
