

May 2026 – October 2026

Welcome to the final edition of our project newsletter!

As the project comes to an end, this issue highlights the key achievements and final activities, with a special focus on the Final Conference, where project results were presented and experiences shared.

We thank all project partners, stakeholders, and participants for their valuable contributions and invite you to explore the highlights of our concluding activities.

## ISIHUB in Budapest: promoting neurodiversity in entrepreneurship

On 7 October 2026, **MGFÜ** held its closing **ISIHUB conference**. The event focused on identifying, supporting and encouraging neurodivergent entrepreneurs, with particular emphasis on the entrepreneurial and economic potential they represent. The conference also featured an interview book developed with the contribution of experts in business development and neurodiversity, offering insights from multiple perspectives. The event was honoured by the presence of Zsuzsanna Lukács, Deputy State Secretary responsible for the protection of enterprises at the Hungarian Ministry for Economic and Energy Affairs, and Hans-Peter Kemser, CEO of BMW Manufacturing Hungary Kft. In their presentations, both speakers highlighted the importance of supporting neurodivergent entrepreneurs at both a societal and economic level, emphasising the significant and largely untapped opportunities this area holds.

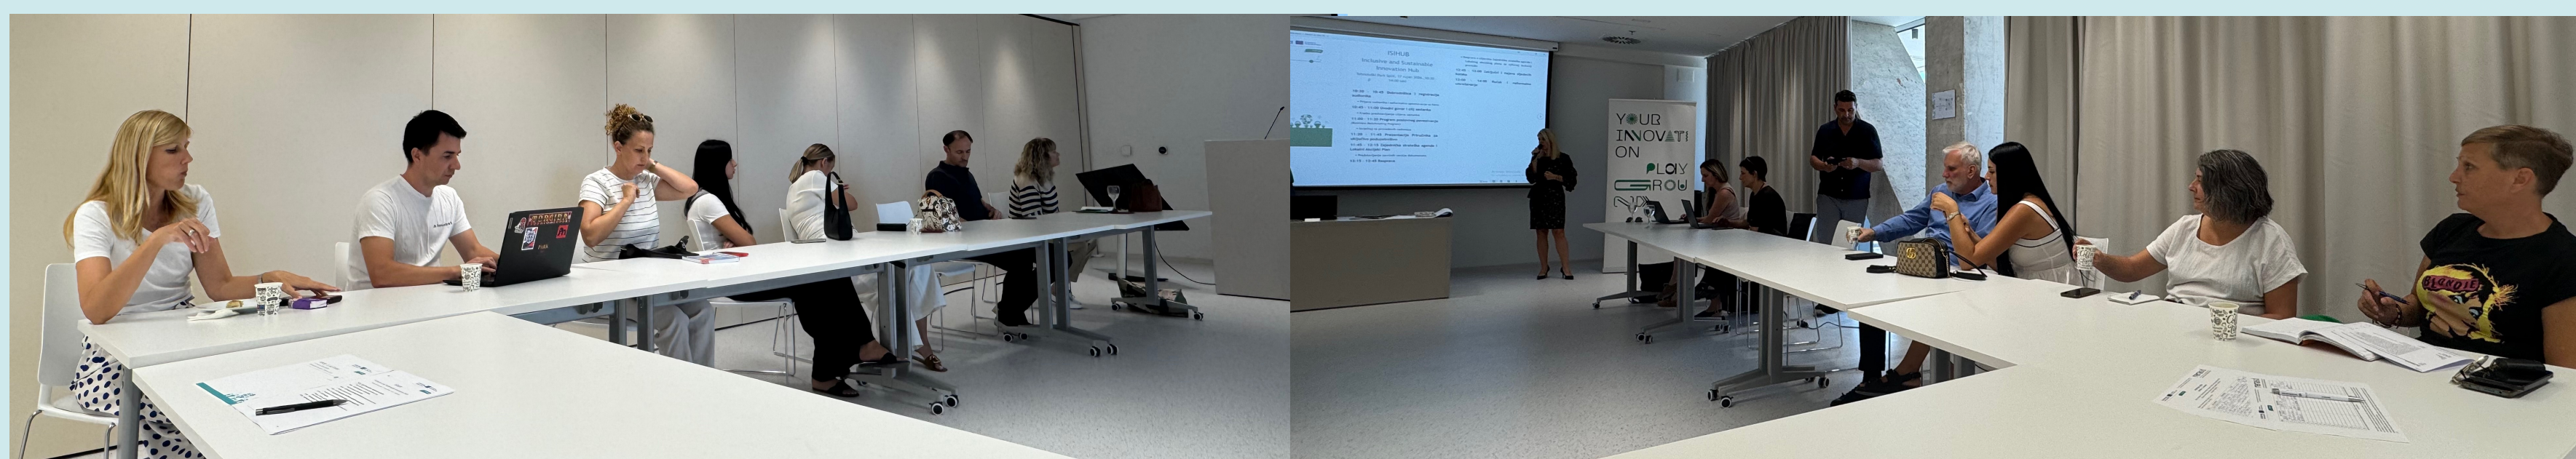

## From ISIHUB Romagna to the future of inclusive entrepreneurship

On 15 September 2026, **ISIHUB Romagna**, the Italian hub of the TASK4ISI project, brought together partners and local stakeholders at Villa Torlonia to celebrate two years of progress in inclusive entrepreneurship. The hub supported **40+ entrepreneurial projects**, providing training, mentoring and networking for young people, women, migrants and others facing fewer opportunities across sectors such as agri-food, tourism, ICT and creative industries. Beyond these achievements, ISIHUB Romagna built a strong public-private network to support inclusive entrepreneurship. Through its Local Action Plan, this experience will continue to foster cooperation and create lasting opportunities for aspiring entrepreneurs.

## 5<sup>th</sup> ISIHUB meeting in Split, Croatia

On 17 September 2026, **PI RERA S.D.** and **CEDRA Split** hosted the **5th and final ISIHUB meeting** at the Split Technology Park, bringing together regional stakeholders to celebrate the project's achievements and strengthen cooperation in inclusive entrepreneurship. Throughout the ISIHUB process, 73 stakeholder attendances contributed to shaping project activities and building connections among public authorities, business support organisations, NGOs, experts and entrepreneurs. The final meeting also offered an opportunity to explore future collaboration and build on the knowledge and partnerships developed through TASK4ISI.

## Sharing experiences and building synergies: TASK4ISI meets SteelCityZen project

On 2 September 2026, TASK4ISI was presented by Dr Magdalena Zajączkowska from Krakow University of Economics at the **3rd Transnational Partner Workshop** of the **SteelCityZen project**, held online.

The presentation highlighted TASK4ISI's experience in supporting social innovation, its pilot activities and regional tools, including the Małopolska regional toolkit. The exchange revealed shared challenges and opportunities for collaboration, demonstrating the value of knowledge-sharing between EU-funded projects. SteelCityZen brings together 11 partners from 9 countries to support the economic transformation of (mono)industrial cities and promote inclusive and sustainable development.

## Celebrating entrepreneurship and collaboration in Erfurt

Participants from the **Business Skills** and **Business Matchmaking programmes** gathered in Erfurt for a final networking event hosted by Plattform e.V. and CGE Erfurt e.V. at Jederkann Galerie.

The event offered a chance to present business ideas, connect with peers and support organisations, and celebrate the achievements of both pilot programmes. Participants also explored the results and watched videos highlighting their journey, knowledge and connections.

## Entrepreneurial academy in Split: Empowering young entrepreneurs

**The Entrepreneurial Academy**, organised in cooperation with **PI RERA S.D.** within the TASK4ISI project successfully brought together **20 aspiring young entrepreneurs** for a four-day programme and final networking event. Participants gained practical knowledge in entrepreneurship, digital business, marketing, finance, and business idea development. Through interactive sessions and networking with industry professionals, they explored new opportunities and were encouraged to develop their own business ideas.

## Strengthening cross-sectoral cooperation for inclusive entrepreneurship

On 28 May 2026, representatives of non-governmental organisations, public institutions, and key stakeholders gathered at Klaster Innowacji Społeczno-Gospodarczych Zabłocie to discuss inclusive entrepreneurship, cross-sectoral partnerships, and sustainable cooperation within the TASK4ISI project. The event featured an expert lecture by Bogna Halska-Pionka on the role of intersectoral partnerships in effective development initiatives. It concluded with the signing of a **Memorandum of Cooperation**, formalising collaboration among key partners and supporting the sustainability of project outcomes beyond its completion.

### ISIHUB Romagna: entrepreneurship starts with you

Participants in the **Business Skills** and **Business Matchmaking Programmes** took part in a practical workshop on personal branding, developing skills and strengthening their awareness of their professional value and entrepreneurial potential. As the pilot programmes approach their final stages, **ISIHUB Romagna** continues to support aspiring entrepreneurs and new business owners in developing their ideas and business projects. Participant feedback highlights the value of this learning and collaboration experience.

## TASK4ISI Final Conference in Krakow: celebrating results and building lasting cooperation

The **TASK4ISI Final Conference** took place in Kraków on 22 and 23 September 2026, bringing together project partners and stakeholders for two days of exchange, reflection and networking to celebrate the project's achievements and explore the future of inclusive entrepreneurship, social innovation and skills development across Central Europe.

### Day 1: Presenting results and shaping future cooperation

Hosted at Kraków University of Economics, the first day focused on the project's key results, tools and strategies. Partners reflected on the TASK4ISI journey and its contribution to supporting inclusive entrepreneurship and strengthening local ecosystems. Key highlights included the presentation of the Joint Networking Strategy and Joint Strategy Action Plan, as well as the Memorandum for Sustainable Cooperation and its key pillars. Discussions also explored the social economy, the TASK4ISI Model and the experiences gained throughout the project. The day concluded with opportunities for networking and a guided tour of Kraków.

## Day 2: Exploring local initiatives and future opportunities

The second day continued with a **Steering Committee Meeting** and a **press conference**, followed by **study visits** showcasing inspiring local initiatives. At Klaster Zabłocie and Krakowski Park Technologiczny (KPT), participants explored approaches to innovation, entrepreneurship, international cooperation and ecosystem development. The programme concluded with a visit to Kraków Nowa Huta, where a guided tour of revitalised areas offered insights into urban regeneration and local development.

### ***Looking Ahead: Sustaining the TASK4ISI Legacy***

Beyond presenting the project's results, the Final Conference provided an important opportunity to strengthen partnerships, exchange experiences and identify ways to continue cooperation beyond the project's lifetime. The strategies, tools and networks developed through TASK4ISI provide a foundation for further action towards more inclusive and sustainable entrepreneurial ecosystems across Central Europe.

### **Building an inclusive future: key lessons from TASK4ISI**

The TASK4ISI project highlighted several key lessons for making entrepreneurship more inclusive and accessible. Personalised, trust-based support helps aspiring entrepreneurs overcome barriers and build confidence, while flexible formats, including hybrid sessions and activities outside regular working hours, enable broader participation.

Strong local and international partnerships strengthen entrepreneurial ecosystems by connecting people, sharing knowledge and creating new opportunities. At the same time, tailored outreach and support are essential to address the diverse needs of different communities.

Practical training, coaching and mentoring help participants develop the skills they need to turn ideas into viable businesses. Ultimately, lasting impact depends on continued collaboration, local action and a long-term commitment to inclusive entrepreneurship.

## Thank you for being part of TASK4ISI!

**Thank you for following, supporting, and being part of the TASK4ISI journey!** Throughout these 30 months, TASK4ISI has been working towards a shared goal: strengthening the competitiveness of our regions through enhanced skills, tailored services for social innovation, and improved policy learning capacities for S4+.

Your interest and support contribute to building stronger regional ecosystems and fostering social innovation. As we continue this journey, we look forward to seeing the project's results inspire new ideas, collaborations, and opportunities for a more innovative and competitive future.

**Thank you for being part of the change!**
